155

Wealth of the richest
Hungarian businessman

302

Cost of launching a
NASA Space Shuttle

571

Annual revenue of the largest
Hungarian supermarket chain (CBA)

This poster visualises the budgetary expenses of the Hungarian Republic for the year 2011. Aim of the visualisation is to make it comprehensible how much and on what does the Government spend the money. It describes the situation as of June 2011, excluding the expenses of the municipalities.

To simplify the overview we quote all values rounded to the nearest integer. Items that are too small to be included separately are either merged with other items or omitted. Data was grouped according to the COFOG (Classification of Functions of Government) Standard. Main data source: Hungarian Central Statistical Office.
